

Meeting opened at 12:07

Chair - Eva

Minutes - Koen

A main point of this meeting is the notation of our progress. We have concluded that it is best to make a document in which we make a small summary of what we have done every day. We have called this document 'Logboek' and we will add it to Github when our project is finished.

Another issue is the train strike on friday. We have discussed this with our supervisor and have decided to move the hours we had planned for that day to Tuesday morning.

Since we have a difficult subject we will do some reading over the weekend. We all have a general understanding of our experiment but through our readings we will get a more in depth knowledge of the subject.

The plan for next week is clear; we will do our experiment.

We will reassess on Thursday 11/06/25.
